

VVC Vent-A-Cap™ Series Vinyl Vented Caps

The Vent-A-Cap Series consists of several styles of caps used to protect the ends of tubing connectors and instrument tips. Vented for air release and easy removal, the vented caps are also useful in the masking industry. Venting for airflow assures that the cap won't pop off during extreme heat. Caps used in the medical industry allow for airflow during ETO gas sterilization. Series 20, Series 22 and Series 26 are tapered to fit multiple sizes for a variety of tubing and instruments. Series 29 is offered in a straight style.

Material: Vinyl **Standard Color:** Black
Optional Colors: White, Brown, Orange, Green, Gray, Blue, Yellow, Red

20 Series
